

## Downloadable checklist — From Excel to LIMS: digitizing water samples, results and reports

Audience: Laboratories, QA/QC, distributors, utilities, multi-site operations · Region: Global

Prepared for water microbiology, traceability and product selection conversations.

### Checklist

- ☐ Inventory spreadsheets, reports, templates and critical data.
- ☐ Map the real flow from request to report and invoice.
- ☐ Define mandatory fields for sample, point, method, operator and lot.
- ☐ Separate result entry, technical review and report release.
- ☐ Connect CoA, customer portal and support communications.
- ☐ Plan migration by phases with a minimum viable workflow.

### Recommended links

- ☐ Request technical recommendation
- ☐ View AquaVerify products
- ☐ Request AquaVerify Cloud demo

### Suggested next step

Use this checklist to prepare a product, platform, distributor or OEM discussion with AquaVerify.

This document is technical orientation material. Method validation, accreditation, competent authority requirements and the quality system of each organization remain decisive.
