

Distributor and OEM checklist

Assess territory, technical support, inventory, packaging, co-branding and white label readiness.

Prepared for water microbiology, traceability and product selection conversations.

Territory and buyer fit

- ☐ Define target countries, sectors, customer types and expected sample workflows.
- ☐ Map current portfolio gaps and how AquaVerify products complement existing lines.
- ☐ Identify local support, training and demo requirements.

Operational readiness

- ☐ Check storage, inventory, batch traceability, shipping and customer documentation needs.
- ☐ Prepare technical support escalation and product training responsibilities.
- ☐ Define commercial terms, minimum volumes and launch timeline.

OEM and brand options

- ☐ Clarify private label, co-branding, packaging language and documentation scope.
- ☐ Define what remains AquaVerify branded and what is adapted for the partner.
- ☐ Evaluate whether AquaVerify Cloud, CRM or portal workflows are included.

Suggested next step

Use this checklist to prepare a product, platform, distributor or OEM discussion with AquaVerify.

This document is technical orientation material. Method validation, accreditation, competent authority requirements and the quality system of each organization remain decisive.
